

Grade 6 Open Classroom

On Wednesday the 4th of March we had the grade 6 open classroom about our Action Learning topic Sustainability. We are creating a sustainable, house/farm/car/caravan and together with our families they helped us with the initial design. We have to do a blueprint with many sustainable parts of what we want it to look like. A house that uses the sun, water and wind/air instead of coal and other fossil fuels that will hurt our planet.

At the start when all the parents that came were there two students from 6HC that did a presentation about what the parents will do and help us with. The point of this open classrooms is to see how well the students work and feel about being sustainable so hopefully they start doing it at home or teach other people how to be sustainable in this life.

GREEN SCHOOLS

HELP LEOPOLD PRIMARY BECOME GREENER

We are calling on the school community to help our school WIN the below competition. Get behind Leopold primary school in becoming more sustainable!

Gateway Plaza Leopold have partnered with local primary schools, to create a greener future for the Bellarine Peninsula and Geelong Region, launching Project: Green Schools.

The pragmatic program will grow on school's current sustainability goals, enabling students to interact and understand their local environment and how they fit into the bigger picture, doing their bit.

Commencing Tuesday 10 March 2020, 'Project: Green Schools' will be introduced across 18 participating Charter Hall shopping centres, including Gateway Plaza Leopold.

Shoppers simply spend \$20 in specialty stores or \$60 at Kmart, Coles, Aldi or Aldi to receive a biodegradable token with a QR code. Shoppers scan the QR code on their token and follow the below steps to vote for their favourite school to win the main prize - a sustainable garden pack.

Gateway Plaza Leopold will work in partnership with the winning school to ensure the prize pack supports the schools existing sustainable goals.
